## Book 3A – Infrastructure Fund

### Preface

The Organic Law of the Ministry of Finance specifies the responsibility of the National Directorate of Budget to collect and manage financial information relating to the public sector and publish the statistical results.

In accordance with this provision and to promote the transparency of the public finance, the Ministry of Finance is publishing the final version of the documents relating to the 2018 State Budget, following the approval of the Council of Ministers.

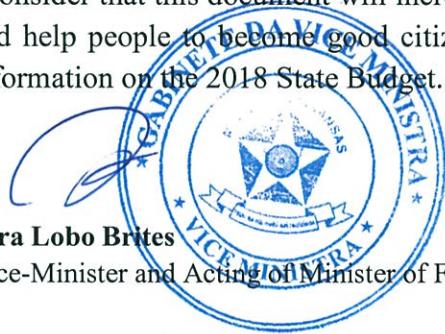

The documentation for the 2018 State Budget consists of the Budget Law, plus several supporting budget books:

- ) Book 1 : Budget Overview
- Book 2 : Annual Action Plans
- Book 3A : Infrastructure Fund**
- Book 3B : Municipalities
- Book 3C : RAEOA & ZEESM
- Book 4a and 4b : Budget Line Items
- Book 5 : Development Partners
- Bok 6 : Special Fund - FDCH

The book 3A on *Infrastructure Fund* is a key accountability of the Government to the National Parliament and the people of Timor-Leste document. Book 3A details the programs and sub-programs of the infrastructure fund. This book also presents external loans funds for developing key infrastructure programs.

Budget documentation is available on the website Ministry of the Finance, [www.mof.gov.tl](http://www.mof.gov.tl). Inquiries relating to the publication should be directed to the General Directorate of State Finance on email [jgama@mof.gov.tl](mailto:jgama@mof.gov.tl) telp.+67077852000, [syaquim@mof.gov.tl](mailto:syaquim@mof.gov.tl) – telp.+67077305809 and [spmartins@mof.gov.tl](mailto:spmartins@mof.gov.tl) – telp.+67077879183.

I consider that this document will increase awareness and understanding of the Government's finances and help people to become good citizens and heroes to our nation by providing them with relevant information on the 2018 State Budget.

Sara Lobo Brites  
Vice-Minister and Acting of Minister of Finance

## 1. INTRODUCTION

Timor-Leste's State Budget focuses on national priorities in the area of social and economic development, including infrastructure. According to the Strategic Development Plan 2011 – 2030, a central pillar of long-term development is the building and maintenance of core and productive infrastructure that will help creating employment opportunities and ensure sustainable economic growth, social transformation and improvement of quality of life and to become a prosperous nation. The role of the Infrastructure Fund is to support most important projects and to invest into strategic sectors according to the Government priorities with respect to sustainable development and the global agenda.

In-line with the above mentioned vision and objectives, the VIII Constitutional Government sets the infrastructure development priorities in the area of basic physical infrastructure as social and economic ground, including roads and bridges, clean water and sustainable energy supply. Most of this basic infrastructure projects/programmes have been initiated from the previous years. Many projects have already been completed, some are still implementing, and many projects need to be financed and constructed to reach the target of the infrastructure development. Other important infrastructure that will be needed in place to support the future and modernize the economy includes digital infrastructure, transport and logistics infrastructure for trade, as well as framework for supporting industrial development should also become government priority for the next several years.

Since the scale of investment required for the infrastructure development is large, and many infrastructure projects would require extensive time to construct (multi-annual), a special arrangement is required to ensure the availability of funds covering the duration of the project. Furthermore, considering also the complexity involved in the implementation of infrastructure project, a project should be prepared carefully to ensure the quality of the infrastructure project that respond to the need of the country with the most affordable cost of investment. The Infrastructure Fund is a financial instrument to provide funds for the major infrastructure sectors in Timor-Leste. By consolidating the funds in one place, the infrastructure investment shall be managed in transparent and accountable manner from the project planning to implementation, monitoring and evaluation.

This IF Budget Book summarizes strategic programs and projects which are in-line with SDP and approved by the National Parliament. The Budget Book for the Infrastructure Fund is an integral part of the General State Budget and the main implementation tool for investment, which includes 22 programs, interconnected with the SDP priorities, related to the long term planning and improving of cost efficiency of infrastructure investments. This Book presents overall IF budget for 2018, including expenditures made from January to August 2018 and the plan for the budget up to the end of the current fiscal year. According to the Article 31 of Law 13/2009 of 21 October, there is 1/12 budget rule which is stated that all expenses related to the temporary allocation should be included in the Budget for current fiscal year.

The following section presents the information about the Infrastructure Fund: Objective of the IF; IF legal framework and Management; Scope and target of infrastructure investment; Annual budget allocation and execution; Project planning for IF projects (feasibility study and appraisal).

## 1.1. Objective of the Infrastructure Fund

The main objective of the Infrastructure Fund is to support strategic projects for further growth of Timor-Leste's economy. IF is the main governmental instrument which was established in 2011 in order to facilitate infrastructure development and provide financial sources for roads and bridges, airports and seaports, power and water supply, education and health, tourism and other major projects with budget over than \$1 million which have significant impact to the country.

Figure A: IF Sustainability

The importance of the Infrastructure Fund for further development is close connected to promoting and effective implementation of major projects, investing in vital infrastructure and creation better conditions for production and employment, encouragement of new jobs in strategic sectors. IF sustainability is connected to strategic priorities of economic development, social and environmental impact.

These priorities are also aligned with the Sustainable Development Goals (SDGs) and the Strategic Development Plan of Timor-Leste for 2011 – 2030, which aims to become an upper middle income country, with a healthy, well-educated and safe population by 2030.

## 1.2. Infrastructure Fund legal Framework and Management of the Fund

The legal framework of the Infrastructure Fund is Law № 1/2016 and Decree-Law № 13/2016 as the substitution of the Decree-Law № 8/2011. In 2016 the Infrastructure Fund was transformed into Autonomous Fund with the intention to alleviate functional limitations existed during the implementation of the IF since its establishment. Now it is able to retain unspent funds each year which transfer forward to succeeding years. Moreover, the execution of the funds, have being made directly by the treasury of the fund to Central Bank, that has cut the payment process time and helps alleviate project delay in the ground. These changes enable to reallocate resources in a more efficient, transparent and accountable manner and to increase efficiency of operations under the Infrastructure Fund.

Following the election on 12 May 2018, it is necessary to form a new structure of the Council of Administration of Infrastructure Fund (CAFI). Currently there is a transition period and a membership of CAFI will be restructured based on the Organic Law of new Government structure and new Budget law. According to the current legal regulation, the IF should be managed by the members of the government, who are responsible for planning, finance, and public works. In-line with this regulation, the VIII Government Constitutional will form the Council of Administration of Infrastructure Fund.

The Major Projects Secretariat (MPS) was established by law to perform key functions as specified in the regulation of IF, as well as provide technical and administrative support to the Council of Administration of Infrastructure Fund (CAFI) in close coordination with National Development Agency (ADN), National Procurement Commission (CNA), and Line Ministries as the implementing agencies. In particular, the role of MPS in addition to support CAFI meetings is to carry out project appraisal and to provide recommendations on budget viability, as well as financing options. MPS also executes payments based on recommendations from ADN by Commitment Payment Vouchers (CPV), Purchase Orders (POs) and Purchase Requisitions (PRs), Journal Voucher and TPO.

### **1.3. Scope of Infrastructure Investments**

The scope of investment of the Infrastructure Fund is based on the legal regulation of IF and covers the following strategic areas, which should help Timor-Leste to achieve the national targets as it is stated the SDP 2011-2030, as well as the global targets in SDGs, that the government has already adopted:

- Transport infrastructure including roads, bridges, ports, and airports;
- Social infrastructure, including hospital, school, and universities;
- Flood control and landslides protection infrastructure;
- Water and sanitation facility;
- Power generation and distribution;
- Telecommunication;
- Logistic facility, including storage infrastructure;
- Public building and public facilities;
- Other infrastructure that promotes strategic development.

The Government provides financing to the infrastructure projects under the Infrastructure Fund according to the social and economic needs that are covered by the following 22 Programmes, interconnected with the priorities and target of SDP and SDGs:

Figure B: SDGs and Infrastructure Fund Programmes Portfolio

The IF portfolio is also in-line with the global agenda such as sustainable development goals (SDGs) that the government of Timor-Leste has already adopted into the national programs, especially related to clean water and sanitation (SDGs goal 6), resilient infrastructure (SDGs goal 9), sustainable and affordable energy supply for all the citizen (SDGs goal 7). And other Programmes under the Infrastructure Fund contribute indirectly to SDG goals, such as poverty reduction, quality of education, decent work and economic growth etc.

#### 1.4. Annual Budget Allocation and Execution

As a result of programs and projects implementation under the Infrastructure Fund since 2011 up to the end of 2017 a total amount of 3.873 billion has been approved and allocated to IF, including the financing from External Loans. This budget has already utilized to finance approved IF projects. And this budget was executed with the average annual rate 62%, as presented in the following table.

Table C: Summary of budget and disbursement rate during 2011 – 2017

| Year         | Budget Book<br>(US\$ Million) | Disbursement<br>(US\$ Million) | Execution<br>(%) |
|--------------|-------------------------------|--------------------------------|------------------|
| <b>2011</b>  | 599.31                        | 474.43                         | 79               |
| <b>2012</b>  | 875.13                        | 376.09                         | 43               |
| <b>2013</b>  | 604.38                        | 205.74                         | 34               |
| <b>2014</b>  | 368.55                        | 330.39                         | 90               |
| <b>2015</b>  | 317.30                        | 240.93                         | 76               |
| <b>2016</b>  | 783.66                        | 548.84                         | 70               |
| <b>2017</b>  | 324.42                        | 223.56                         | 69               |
| <b>TOTAL</b> | 3,872.75                      | 2,398.98                       | 62               |

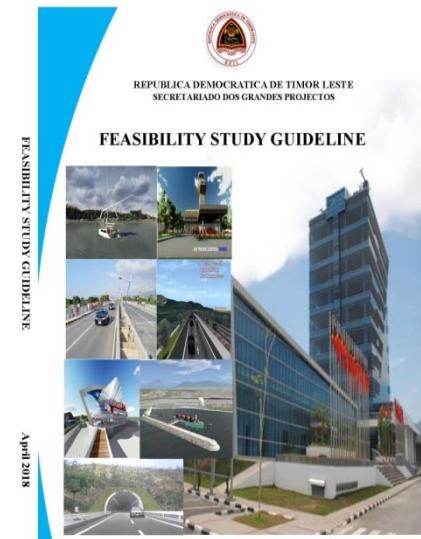

## 1.5. Project Planning (Feasibility Study and Appraisal for IF projects)

Due to a large scale of capital investment of the infrastructure project and the nature of complexity, proper project planning of the infrastructure proposals must be carried out prior to approval of project financing before implementation. During the project planning phase, all relevant risks related to the project (technical, economic/financial, social and environmental) shall be identified. Thus the mitigation measures can be taken in advance to minimize the risks which may affect the overall cost of the project during the implementation. When the proper planning is carried out with the assessment of various mitigation measures over the potential risk, it could lead to cost-saving during the project implementation such as minimization of project cost overrun, ensure the value for money of the project, and minimize the project time delay.

For the infrastructure project, in terms of national standards of project planning, there are two main tools in project planning that shall be carried out by the Government prior to the financial approval of project implementation. A feasibility study (FS) is the first tool of project planning that should provide technical and financial information, which becomes the basis to appraise and decide why certain project has strategic impacts and why it deserves higher priority for funding compare to other project proposals. And a project appraisal is the second tool that should help to identify priorities for investment based on cost-benefit analysis and other factors.

### Project Feasibility Study

The Infrastructure Fund through the Major Project Secretariat has prepared the Feasibility Study Guideline, as the national standard to conduct the feasibility study for infrastructure project in Timor-Leste. This document should guide both executing and implementing agencies in supervising of consultant companies that evaluate project feasibility for the government. By making it mandatory, to have feasibility study for all strategic projects, should help to ensure quality of infrastructure according to the level of investment. More importantly, with the feasibility study results, the government can plan the investments from the Infrastructure Fund for the most strategic projects that contribute significantly to the social and economic development of the country. The Action Plan to implement the Feasibility Study Guideline for IF projects has been approved by the Government in 2018.

Picture D: FS Guideline (FSG)

### Project Appraisal for IF

Project appraisal objective is to prioritize and to select the best options for investment based on methodology which is taking into account contribution to SDP, economic viability, readiness of the project for funding. There are two key elements for project appraisal for scoring and evaluation:

- Importance for development;
- Readiness for funding.

The appraisal methodology based on a set of 8 multiple criteria for evaluation, including: (i) relation of the project or the project's sector to the Strategic Development Plan; (ii) economic impact as measured by the economic internal rate of return (iii) and effectiveness of investment; (iv) social impact as direct number of new jobs and indirect number of benefited population; (v) readiness for implementation as measured by required environmental license and other documents; (vi) dependence of the project on additional infrastructure for reasonable cost, (vii) readiness of the project for construction and availability of required documents such as concept design, feasibility study, detailed engineering design and other related documents, (viii) readiness of land for the project in terms of land availability for construction and assessment of requirements of possible resettlement under the project.

Finally, the appraisal for infrastructure projects under IF focuses on the following results:

- Support growth and key sectors based on the Strategic Development Plan;
- Invest in priority projects with the maximum economic and social impact;
- Improve infrastructure for economic development in Timor-Leste.

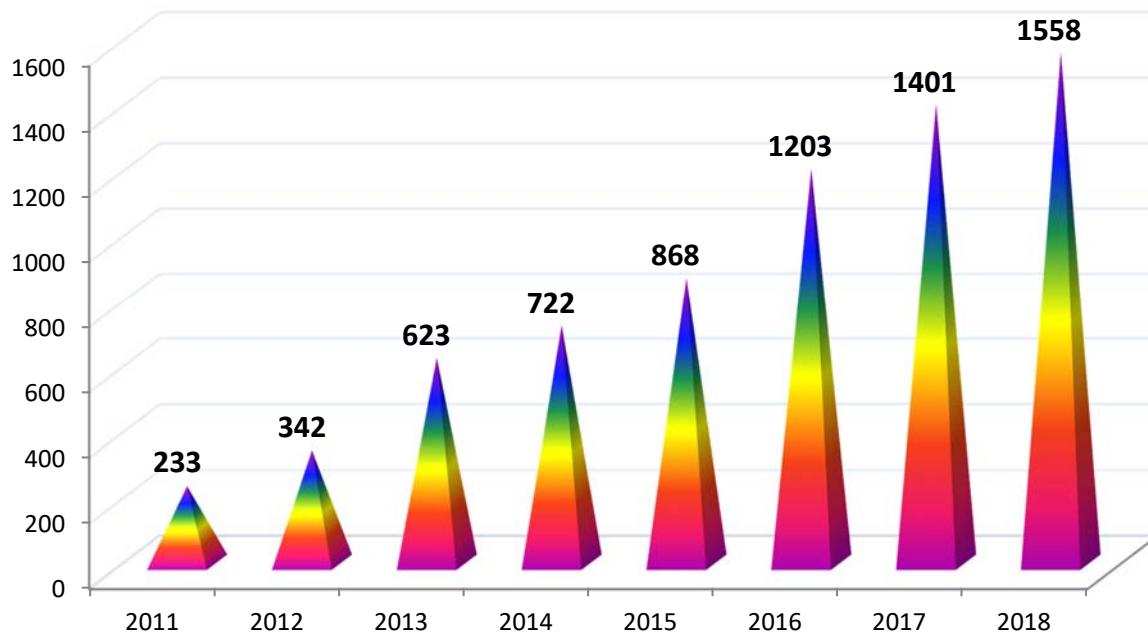

The main objective of the project appraisal is to identify major benefits of the projects, evaluate viability and readiness of proposals based on multi-criteria analysis under the Infrastructure Fund. Finally, to rank all submitted project proposals based on overall importance in terms of social and economic impact and readiness for funding and implementation.

## 2. INFRASTRUCTURE FUND PORTFOLIO

The Infrastructure Fund budget is aiming on financing programs with the source of funding from the State budget, external borrowing, and public-private partnership through the PPP modality. During the period 2011 - 2017 a total number of IF programs has increased from 13 to 22. Number of programs is changing because of availability of funds and budget limitations for implementation of major projects.

Currently, a cumulative number of projects under the Infrastructure Fund is 1558. The status of IF projects are as follows: 772 completed projects (since the establishment of IF in 2011), 532 ongoing projects and 254 projects in IF Portfolio have not been started or have not yet funded. The government priorities for IF investment are still to focus on basic and vital infrastructure, including power and water supply, roads and bridges as it is stated in the Strategic Development Plan (SDP).

**Total number of projects under the Infrastructure Fund, 2011-2018**

*Figure E: Infrastructure Fund Portfolio by IF Programs*

The following section provides a detailed description of each IF Program, including purpose of the program and area of investment, total number of projects which are listed in the portfolio, current status of project implementation, as well as allocated budget to cover projects under the Infrastructure Fund.

## 2.1. AGRICULTURE PROGRAM

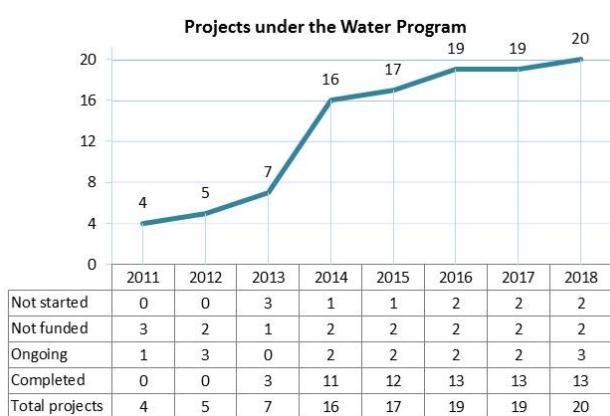

The Agriculture Program has a high priority for Timor-Leste, where infrastructure is an important element with the goal to support food production, improve distribution and food security directly through enhancing accessibility and indirectly by increasing number of jobs and income. More than 63%<sup>1</sup> of the households in the country depend on agriculture sector. According to the SDP the goal of the food security is to create additional irrigated fields which could increase the productivity of rice, maize and roots/tubers and the area of irrigated rice by 40% from 50,000 hectares to 70,000 hectares by 2020.

IF has supported the implementation of 18 projects under the Agriculture Program related to the irrigation improvement to help to achieve above stated goals. Irrigation schemes are considered by the Ministry of Agriculture and Fisheries as a major component for resuscitation in order to achieve targets of self-sufficiency in staple food crops, principally rice and maize.

Since 2011, 8 projects have been completed, including 3 big irrigation projects during 2013 – 2015 Raibere, Oebaba and Caraulun and 2 strategic projects in Bebui and Cassameta in 2012. Currently, there are 6 ongoing projects, 2 projects have not started and 2 projects have not yet funded.

*The Program budget allocation for 2018 is of US\$ 3.834 million.*

## 2.2. WATER AND SANITATION PROGRAM

According to SDP, access to clean water and sanitation is a very critical to Timor-Leste as it should help to improve public health, create new jobs and encourage rural development, make it easier to maintain and sustain our valuable water resources and spread our limited water resources<sup>2</sup>.

There are 20 projects under the IF Water and Sanitation Program. Currently, 3 projects have ongoing status, including: (1) Continuation of the Master Plan for Dili Drainage; (2) Feasibility Study for Dili Water Supply System (PPP modality

project) and (3) Drilling and Installation of water pump and construction of 100m<sup>3</sup> of the Reservoir at Hospital National Guido Valadares (HNGV). Two projects have not yet started: (1) Construction of Dili drainage and (2) Feasibility study of Water development project in Dili Metropolitan Area (Railaco river). And two projects have not yet been funded (Construction and supervision of water and sanitation facilities - nationwide project and Water supply in 10 districts, PPP).

<sup>1</sup> Strategic Development Plan 2011 – 2030 (SDP), pages 121 – 122 & 124

<sup>2</sup> Strategic Development Plan 2011 – 2030 (SDP), page 80

*The Program budget allocation for 2018 is of US\$ 588 thousand.*

### 2.3. URBAN AND RURAL DEVELOPMENT PROGRAM

The objective of this Program is to ensure that planning for economic activity based on maximizing regional and local resources and should reduce the gap in progress between urban and rural areas. Spatial plans and National Planning Framework contain of (i) the pathway for development in each region, (ii) environmental sensitivities, including natural disaster risk factors and (iii) zoning regulations that set out boundaries for each sector to ensure sustainability and environmental protection. Rural development is a priority concern for Infrastructure Fund because of large proportion of population living in the rural areas.

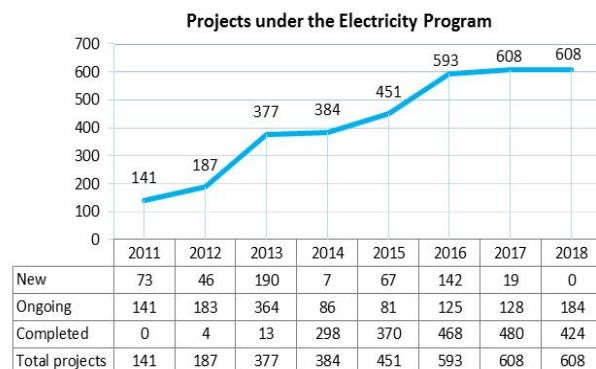

Since 2011 under the Urban and Rural Development Program in total 7 project. Two big projects have been completed, including the information system LiDAR for mapping and planning and also the spatial plans for Southern zone of TL (Suai, Same and Viqueque).

There are 2 ongoing projects: II-phase of LiDAR project and National spatial planning. 2 projects have not been funded yet: Spatial Plan for High Land (Ainaro, Ermera, Aileu and Bobonaro) and Spatial plan for Northern Zone (Manatuto, Baucau, Lospalos, Liquica and Dili).

*The Program budget allocation for 2018 is of US\$ 5.406 million.*

### 2.4. ELECTRICITY PROGRAM

The objective of the Electricity Program is to provide reliable electricity generation, transmission and distribution throughout Timor-Leste. The program objective is to build two new power plants at Hera (120 MW) and Betano (130 MW) and to install 150KV nationwide power line grid plus 20KV distribution lines, 9 substations, medium and low voltage of house connection, and street light illumination. All transmission line networks are completed including power grid ring in the section between Maliana to Suai. Now two power stations at Hera and Betano are operational and most of the power distribution lines and sub-stations are also now operational. The importance of reliable electricity supply is essential for progress of the nation to modern and economic development. Stable power supply is also important condition to enhance the private investment in Timor-Leste.

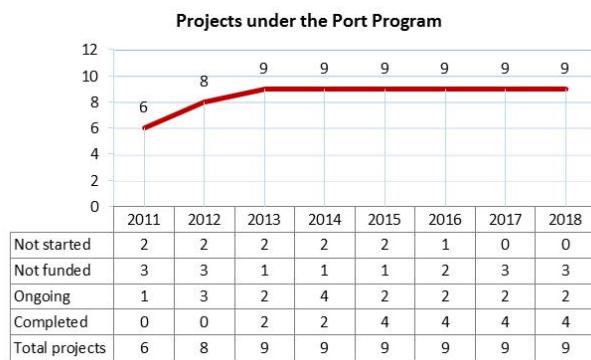

The Electricity Program under the Infrastructure Fund consists of 608 projects, including power stations, substations and power grid. Currently, there are 184 ongoing projects, and 424 completed projects for power, medium and low voltage power distribution towers and cables throughout the mainland of Timor-Leste. Among other works which remain to complete under this Program: the Central control systems, Improvement of street lighting and construction of accommodation for maintenance and

operating staff in the districts, as well as operation and maintenance.

*The Program budget allocation for 2018 is of US\$ 16.110 million.*

## 2.5. PORT PROGRAM

Development of ports is a strategic IF Program to support economic growth and industry, export-import activities that require fast and reliable freight services. Currently, only Dili port is serving all shipments in Timor-Leste. And port's capacity is not sufficient for future. Moreover, the regional ports are also in poor condition<sup>3</sup>. The SDP targets the relocation of the main port of Dili to Tibar Bay and the restoration of the regional ports and harbors to fit-for-purpose.

In total, there are 9 projects under the IF Portfolio for ports development. 4 projects have been already completed, including rehabilitation of Hera Port and dredging works at Naval Base, dredging works in Dili Port, Cargo terminal in Tasi Tolu. Two projects ongoing: Construction of Tibar Bay (PPP) and rehabilitation of Dili Port. And 3 projects have not yet funded, including upgrading of facilities for regional ports in Com, Atauro and Vemase.

in Suai was under IF Ports Program. But from 2013, according to the government plan, it was combined with the Supply-Based Port under the Tasi Mane Development Program.

*The Program budget allocation for 2018 is of US\$ 750 thousand.*

## 2.6. AIRPORT PROGRAM

Airports and international air travel to and from Timor-Leste are essential for the development of business and tourism. However, the country has lack of airports suitable for international standards which accepted by the International Civil Aviation Organization (ICAO). Domestic aviation services are limited to chartered fixed wing aircraft and helicopter services and the airfields served are inadequate to handle larger aircraft and more intensive services.

The Government has a vision to improve and to develop existing airports including Dili, Suai, Baucau, Maliana and Viqueque as identified in the Strategic Development Plan 2011-2030. For Southern coast infrastructure development the Government has commenced upgrading of Suai Airport.

Since the establishment of the Infrastructure Fund in 2011 there are 15 projects under the Airport Program<sup>4</sup>, including upgrading and extension of the Nicolau Lobato International Airport in Dili and regional airports in Maliana, Baucau Suai, and

Oecusse. Currently, under the Airport Program there are 5 ongoing projects, 4 projects have already completed, 1 project have not yet started and 5 projects have not funded.

*The Program budget allocation for 2018 is of US\$ 10.273 million.*

<sup>3</sup>The exception is the port in Oecusse which has been upgraded to handle freight and passenger traffic with JICA

<sup>4</sup>Including Rehabilitation and Expansion of Suai Airport which was part of Tasi Mane Program.

## 2.7. MILLENNIUM DEVELOPMENT GOALS PROGRAM (MDG)

The SDP states that “Timor-Leste is working towards achieving the United Nations’ Millennium Development Goals” and as a result the country has made good progress in many areas. In order to achieve the MDG targets the Millennium Development Goals Program has been included in the IF portfolio since its establishment of the Infrastructure Fund.

A key component of the Millennium Development Goals Suco Program to build houses for vulnerable people. The housing will include solar energy, water and sanitation. Local communities will be able to work together and help their most vulnerable neighbors by ensuring they have adequate housing. This progress with MDG projects is very important for poverty reduction, improvement of living standards and country development.

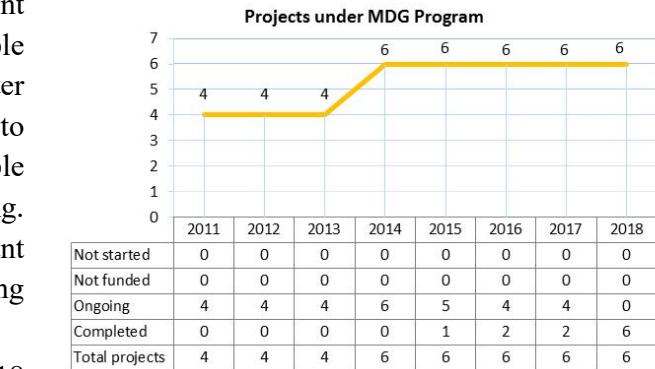

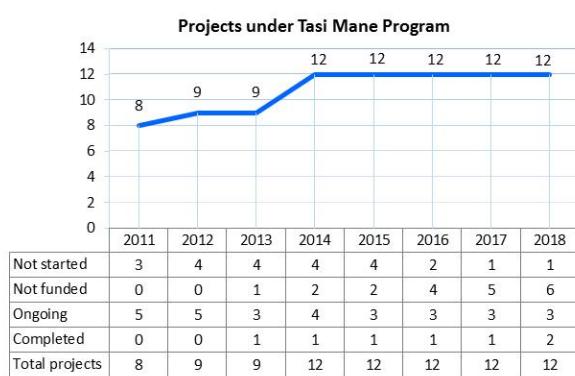

Under MDG Program there were 6 projects. By 2018 all MDG projects under the Infrastructure Fund have already been completed, including Social Housing, Road and drainage, Public facility and Water & Sanitation.

*There is no allocated budget for the Program in 2018 because the MDG Program has been completed.*

## 2.8. TASI MANE PROGRAM

The Tasi Mane Development is a strategic investment Program of the Government initiated to accelerate the economic growth in the Southern coast zone of the country which is identified in SDP.

The Program is implementing in Southern coast area, which is endowed with a wide variety of natural resources. The objective of the program is to construct the required infrastructure support for the development of oil and gas industry from upstream to downstream areas. The Program has a broad social and economic impact as it will help to create new jobs, improve living conditions, generate various industries and stimulate the economy as well as attract investment in Timor-Leste.

The main core of economic development in South coast will be focused on oil and gas industry as petroleum sector is Timor-Leste’s greatest source of State revenue. This revenue helps to finance health care, education, security & defence and to build and maintain infrastructure for the strong nation. Expansion of oil and gas sector is constrained by lack of vital infrastructure in the South coast.

Meantime under the Tasi Mane Program there are 12 projects, including 3 ongoing projects: (1) Design,

construction and supervision of Suai Supply Base; (2) Suai - Betano - Beaco Highway; (3) Water Supply in Dato Rua To Tolu. Two projects have been already completed: Environmental Study for South Coast for Tasi Mane Program and Study for Beaco; 2 completed projects including Study for Beaco and Environmental study for South coast; 6 projects have not yet funded, including Urban plan of Suai area.

*The Program budget allocation for 2018 is of US\$ 100.533 million.*

## 2.9. EXTERNAL LOANS PROGRAM

According to the SDP 2011 – 2030, in order to complement state financing, and in particular infrastructure projects financing, grants and concessional loans will be considered by the Government. This may provide favorable public financing options to support infrastructure programs such as rehabilitation of roads and bridges<sup>5</sup> and other strategic infrastructure projects.

In accordance with the public debt policy and law, all loan-funded projects are expected to generate high social and economic benefits after implementation, well in excess of their financial cost. The financial cost of the loans should therefore be lower than the returns being earned by the alternative source of funds, which is the Petroleum Fund. Currently, loan funded projects under the Infrastructure Fund are related to construction of roads, drainage construction and upgrading and airport development.

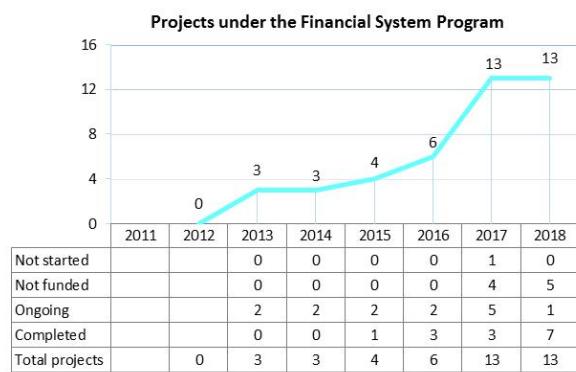

There are 19 projects under the External Loan Program. This Program was established in 2012 to implement Road Network Upgrading Project (RNUP) from ADB and Road Upgrading Project of Dili-Baucau from JICA. In 2013 there were signed two new agreement, including Road Network Upgrading Project (RNUSP) from ADB and Road Climate Resilience Project of Dili-Ainaro from World Bank. In 2015 in IF Portfolio were added Tasitolu-Tibar Dual Carriageway Road Project signed by ADB and GoTL. And in 2016 there were accepted additional

financing for Road Network Upgrading Sector Project (RNUSP).

**The Program budget allocation for 2018 is of US\$ 61.607 million.**

## 2.10. FINANCIAL SYSTEM AND SUPPORTING INFRASTRUCTURE PROGRAM

The Financial systems and supporting infrastructure Program was newly defined for the Infrastructure Fund in 2013 in responding to increasing number of projects that implemented by the Ministry of Finance that was originally listed in the Public Buildings Program.

There are 13 projects under the Financial System Program: 7 projects were completed, including (1) Concept design, construction and supervision of new building for the Ministry of Finance; (2) Construction of Ministry of Finance building; (3, 4) supply and installation IT & Data center for MoF and supervision; (5, 6) Interior fitment of Ministry of Finance and design; (7) DED for Customs and Tax House for Ministry of Finance.

There is one (1) ongoing project under the Program: Free Balance System. Five (5) projects have not yet been funded: SIGTAS; ASYCUDA World; Back-up system for MoF; integrated stations for Oesilo and Tunubibi, and Batugade project.

**The Program budget allocation for 2018 is of US\$ 4.918 million.**

<sup>5</sup> Strategic Development Plan 2011 – 2030 (SDP), page 208

## 2.11. INFORMATICS PROGRAM

Improving information technology to support service delivery is one of the priority of the Strategic Development Plan<sup>6</sup>. The Informatics Program is very important as industry and commerce rely on rapid and stable communications with adequate capacity and coverage to meet users' demand. The current communication technology such as speed of data transfer and connection in Timor-Leste is still behind such countries as Indonesia, Australia, or other countries in the pacific region.

There are 4 informatics projects under this Program which intend to ensure that Timor-Leste provides the capacity and quality that will be required by existing and potential investors in social, commerce and industry sectors in the country. One project (FreeBalance) moved to Financial System Program. The Ministry of Public Works Transport and Communication intends to improve existing communication system to provide better communication access to the people. Internet connection and high speed upgrade will allow to get better quality of service, helping to improve trade opportunities for national and foreign investors and get access to international markets. Out of 4 ongoing projects two were started in 2014: National Connectivity Project Phases III and V; Satellite Internet Upgrade from 60/80 Mbps to 100/200 Mbps. And another two ongoing projects: (1) Extension of PCN II and network fiber-optic and (2) Data Center All informatics projects under this Program that will continue in 2018.

*The Program budget allocation for 2018 is of US\$ 7,979 million.*

## 2.12. YOUTH AND SPORTS PROGRAM

According to the priorities of Strategic Development Plan 2011 – 2030 for Youth and Sports sector the IF Program will help to re-shape Timor-Leste and contribute to the transformation of our society and economy. The IF Youth And Sports Program was separated from the public building program in 2013 and focuses on the construction of national stadia for major outdoor and indoor sporting events and the construction of eight regional outdoor stadia as a pre-requisite for the creation of national football leagues in partnership with South Korea, the Asian Football Confederation, Football Federation Australia and the Real Madrid Foundation. According to the Part 2 of the SDP "Social capital", the Youth and Sports sector

has significant importance for Timor-Leste's development<sup>7</sup>.

The Youth and Sports Program includes 14 projects for construction of stadia in four districts. Construction and supervision of 4 Football Stadia in Baucau, Maliana, Manufahi, and Ermera will help and to boost the youth in developing skills in sport. Currently, 9 projects have ongoing status and 5 projects have already been completed, including stadia in Maliana and Baucau districts.

The National Outdoor Sports Stadium and Multi-

Function Sport Facilities are in-line with SDP. The National Outdoor Sport Stadium will have a capacity of 45,000 visitors, international standard football field and athletics field. To cover the existing contracts from the previous years the Government has allocated the following budget of the Program under IF.

*The Program budget allocation for 2018 is of US\$ 1.944 million.*

<sup>6</sup> Strategic Development Plan 2011 – 2030 (SDP), page 184

<sup>7</sup> Strategic Development Plan 2011 – 2030 (SDP), pages 16 & 52-54

## 2.13. HEALTH PROGRAM

The IF Health Program focused on infrastructure support for health sector, which will help the country to achieve the SDP 2011 -2030 goal that Timor-Leste by 2030 will have a healthier population as a result of comprehensive, high quality health services accessible to all Timorese people. And it will help to build a healthy and educated society to address the social needs of our people and promote human development. In terms of infrastructure development improvements are required at the National Hospital, the referral hospitals and the district and sub-district clinics and health centers<sup>8</sup>.

There are 14 projects under the IF Health Program. Four projects have been completed, 1 has not funded, 5 projects have not yet started and 4 ongoing projects. Among ongoing projects: (1) Extension of Sterilisator (Auto Clave) Room at Hospital National Guido Valadares; (2) Additional Works for Hospital Referral in Baucau; (3) New Construction of Acute Care Building of HNGV in Dili and (4) Extension of MRI Room at Hospital Nacional Guido Valadares, Bidau Lecidere in Dili. In 2016 DED were completed for

Rehabilitation and construction of old building of Dr. Antonio Carvalho Hospital and for ICCU and project of pediatric building at Guido Valadares National Hospital (HNGV).

*The Program budget allocation for 2018 is of US\$ 1.894 million.*

## 2.14. TOURISM PROGRAM

According to the Strategic Development Plan 2011 – 2030 in a global market seeking new and authentic tourist offerings, Timor-Leste will position itself to provide a range of tourism experiences that take advantage of our natural beauty, culture and heritage. Timor-Leste has a potential to develop a tourism based on its unique cultural heritage, climate, land and marine fauna and flora and topography. While major initiatives for tourism are expected to come from the private sector, government also supports development of the sector.

To develop tourist market, it is necessary to improve a core infrastructure including roads and bridges, electricity, telecommunications, airports and seaports. As major infrastructure projects are undertaken, the tourism industry will be developed to respond to the increased accessibility of our country<sup>9</sup>.

There are 18 projects under the Tourism Program. A total of 8 projects have already been completed (7 CPLP projects and 1 project in Oecusse). Currently there are 9 ongoing projects, including: Study, design and construction for Hot Water Springs in Marobo; Study, design and construction for Development of Lake Maubara, Construction of Marina Square. And also plus 5 ongoing projects in Oecusse.

*The Program budget allocation for 2018 is of US\$ 223 thousand.*

<sup>8</sup> Strategic Development Plan 2011 – 2030 (SDP), pages 13, 36

<sup>9</sup> Strategic Development Plan 2011 – 2030 (SDP), pages 144 - 145

## 2.15. EDUCATION PROGRAM

The Education Program is based on the National Education Strategic Plan<sup>10</sup> which recognizes current situation and challenges that affect the MoE's ability to meet the country's obligations towards education development, as well as its commitment to the Millennium Development Goals and other national priority targets. It provides a sector-wide support that will guide implementation at all levels in the country, involve development partners and key stakeholders.

This Program Portfolio consists of 20 projects, including 12 completed, 6 not funded and 5 ongoing projects: construction of Reference Schools in Baucau, Maliana, Same, Manatuto and Ermera. For some projects DED have been completed but no available fund for construction: Agriculture Building, Engineering Building and sector 1 of UNTL Campus; Polytechnic schools in Suai, Same and Lospalos; and Fishery academy in Manatuto; and Reference Schools in Lospalos, Liquica, Aileu, Suai (4 districts).

*The Program budget allocation for 2018 is of US\$ 1.734 million.*

## 2.16. SOCIAL SOLIDARITY PROGRAM

There are 3 projects in IF Portfolio. Two (2) projects completed. One project completed in 2013 (Jardim dos Heróis) and one project completed in 2016 (Construção do Monumento-Rotunda do Aeroporto Nicolau Lobato, Comoro). Currently 1 ongoing project (Monumento 12 de Novembro) under the Social Solidarity Program in 2017 as of rectification. *The budget for the Program in 2018 is of US\$ 66 thousand.*

## 2.17. BRIDGES PROGRAM

Good and well-maintained bridges are crucial for ensuring reliable access to markets, education and health services and for security and social stability. These are fundamental requirements for economic and social development that are recognized by the Government and stated in the Strategic Development Plan 2011 - 2030. Therefore, the construction of new bridges, rehabilitation of deteriorated bridges and widening of narrow bridges was justified by high traffic that ranked it as a high priority in the allocation of budget from the Infrastructure Fund.

According to the IF Portfolio under the Bridges Program there are 42 projects, including: 15 projects which had been completed in previous years; 12 ongoing projects (Dilor, Taroman, Baer, Lawana in Ermera, construction of Comoro I/II (arch bridge) and Comoro III, Mauchiga in Ainaro); 1 project have not yet started and 6 projects have not been funded plus 8 additional not funded project (as part of 143 projects approved by CAFI in 2017).

*The Program budget allocation for 2018 is of US\$ 10.626 million.*

<sup>10</sup> Ministry of Education, Timor-Leste, *National Education Strategic Plan 2011 – 2030*

## 2.18. SECURITY AND DEFENCE PROGRAM

Security and defence have a top priority for Timor-Leste. The goal of SDP is to build a security sector that can undertake its role of serving the people and ensuring the peace, safety and stability of our nation and to defend the nation, while also supporting Timor-Leste's internal security and civil society, and contributing to efforts to tackle threats to regional and global peace and stability<sup>11</sup>.

Under this IF Program there are 2 subprograms (Security and Defence), and in total 56 projects.

The Security Subprogram includes 34 projects: five (5) ongoing projects and 29 projects which already completed. F-FDTL aims to build capabilities to ensure that it becomes more flexible and versatile, develops joint military capabilities with other security services and is ready to face unexpected challenges and threats.

There are 22 projects under the Defence Subprogram, including one (1) new project, two (2) not funded projects (Construction of MoD Building and Construction of security posts in Atsabe, Ferik Sare, Ermera, Ainaro, Uatolari) and 2 ongoing project: (1) Construction of F-FDTL posts in Oecusse; (2) Construction of Police Military Base. And one (1) project under this Program is pending because of the land problem.

*The Program budget allocation for 2018 is of US\$ 4.396 million.*

## 2.19. ROAD PROGRAM

According to Strategic Development Plan 2011 – 2030 road development has one of the highest priorities. The aim of the Program is to support movement of goods and services as well as to provide connectivity in terms of transportation between districts to various centers of economic activities.

As it is stated in SDP in 2011 around 90% of national and district roads were in poor or very poor condition. Road projects have strong economic and social impact because these projects provide access to isolated areas, reduce time and cost of transportation and create additional jobs. And well-constructed and maintained road system in Timor-Leste should be resilient to the climate and weather conditions and it's essential for economic growth, social cohesion and national security.

A total number of the projects under the Roads Program is of 474, including 135 new road proposals (as part of

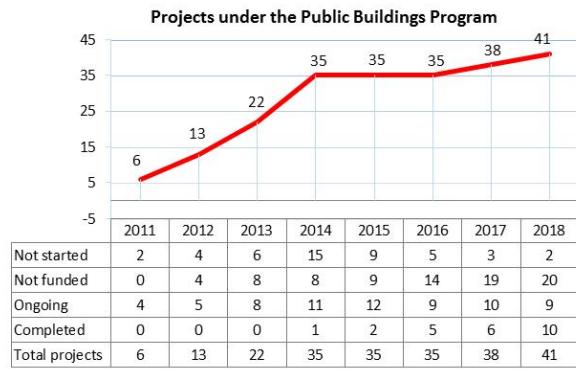

143 projects, approved by CAFI in 2017). Currently, under IF Portfolio of the Program there are 135 new projects, 192 completed and 147 ongoing projects.

*The Program budget allocation for 2018 is of US\$ 128.836 million.*

<sup>11</sup> Strategic Development Plan 2011 – 2030 (SDP), page 227

## 2.20. PUBLIC BUILDINGS PROGRAM

This Program has strategic importance because the most of existing government offices and public buildings were constructed during the Indonesian administration and few were constructed during the Portuguese administration. Many of these buildings were damaged prior to the restoration of independence and some do not fit anymore to the needs of the government. Therefore, the objective of the Program is to support the provision of effective services to the public.

There are 41 projects listed in the IF Portfolio. There are 12 projects have ongoing status, including National Parliament Building, Civil Service Commission (CFP), Anti-Corruption Commission (CAC), Criminal Investigation Office and Court Office (STJ, TSAFC, CSM), Commercial Bank.

A total of 10 projects have been completed since 2011. 2 projects have not yet started and 20 projects for public buildings are required financial sources.

*The Program budget allocation for 2018 is of US\$ 10.214 million.*

## 2.21. PREPARATION OF DESIGNS AND SUPERVISION SERVICES

The Preparation of Designs and Provision of Supervision Services Program was established in 2013 in order to facilitate a preparation and supervision of major projects by Line Ministries whose budget is insufficient for this service. In-line with the provision of design and supervision for strategic projects under IF, one of the objectives of this Program is also to support project preparation, planning and budgeting in terms of feasibility study for proposals with significant social, economic and environmental impact based on the national standards and project evaluation for infrastructure area. A proper feasibility study should help to assess and avoid various risks during the project implementation

There are 47 projects under this IF Program. Currently, under this Program there are 10 ongoing projects, including 1 project as PPP package (health and electricity).

*The Program budget allocation for 2018 is of US\$ 771 thousand.*

## 2.22. MAINTENANCE AND REHABILITATION PROGRAM

The Maintenance and Rehabilitation Program was proposed by the Government during the budget review committee in 2016 in order to keep existing infrastructure facilities such as road and water supply in a proper condition. Maintenance of rural and national roads is also one of the main priorities for this Program under the Infrastructure Fund.

There are 98 projects under this Program. Currently, there are 15 maintenance projects for water sector and 9 projects for roads. Out of 15 project for water sector - 12 project ongoing and 3 projects that have been already completed: (1) Be Mos sistema gravitasau in Lereloho, (2) Rehabilitation of Be Mos sistema gravitasau in Certulan and (3) Construction and installation Be Mos sistema gravitasau in Aldeia Lebuto. All 9 road projects ongoing. And also in the IF Portfolio 74 projects for rehabilitation and maintenance under the R4D Program.

*The Program budget allocation for 2018 is of US\$ 12.505 million.*

### 3. IF BUDGET SUMMARY

A total allocated budget for the Infrastructure Fund for 2018 is of US\$ 386.014 million, including US\$ 324.407 million for IF projects and 61.607 million for loan projects. The source of financing of the infrastructure projects under the Infrastructure Fund is from the State budget, PPP and External loans. The following tables present the summary of IF budget for 2018, IF Budget for 2018 by Programs and the Loan financing for the Infrastructure Fund in 2018.

*Table F: Summary of IF Budget for 2018*

#### **4. ANNEXES**

- Annex 1: Infrastructure Fund Budget, Council of Administration of the Infrastructure Fund
- Annex 2: List of Projects for Electricity Program (total 197 projects)
- Annex 3: Concept of construction and supervision for development of South Coast (Rehabilitation of Suai airport), BL-8080101
- Annex 4: Preparation of projects for design and supervision, BL-8090501
- Annex 5: List of Road projects for emergency implementation from 2013 (total 14 projects) BL-8090118
- Annex 6: Rehabilitation projects for Flood Control (total 7 projects), BL-8090235
- Annex 7: Rehabilitation of roads Dili-Manleuana-Solerema-Aileu 15 km, (total 9 projects), BL-8090252
- Annex 8: Rehabilitation and construction of urban roads, Phase II (37 projects), BL-8090267
- Annex 9: List of 15 Emergency Projects from 2013 in 5 Municipalities (Package B), BL-8090453
- Annex 10: List of 29 Emergency Projects for Roads, BL-8090454
- Annex 11: List of 48 Projects for Roads in 12 Municipalities, BL-8090455
- Annex 12: List of 135 Projects for Rehabilitation of Roads and Bridges in 12 Municipalities (Approved by CAFI in July 2017)
- Annex 13: List of 8 Projects for rehabilitation of bridges (Approved by CAFI in July 2017)
- Annex 14: List of Projects of the Maintenance and Rehabilitation Program (BL-9770101, 9770102 and 97701013)
